How to Create an Amazon Wish List, Add Items, and Share Your Wish List

Visit Amazon.com and log in to an account affiliated with your organization. From the Home page, click Accounts & Lists, then click Create a List.

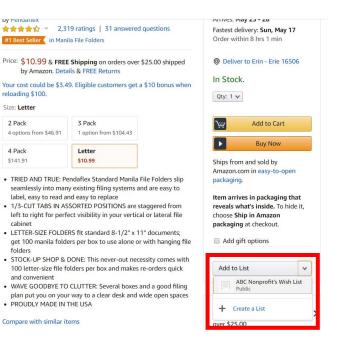

In the Create a List dialog box, choose Wish List as your list type. Then, name your Wish List "[ORGANIZATION NAME]'s Wish List" and set your list to Public. In the Recipient Name field, list your organization name. Click Create List.

Your Wish List has been created! Now, you'll need to add items to it.

To add an item to your Wish List, first search for an item on Amazon. Then, on the item page, look for the grey Add to List button on the right hand side of the screen. Click [ORGANIZATION NAME]'s Wish List to add the item to your Wish List.

Once you've finished adding items to your Wish List, click Send to Others.

In the Invite others to your list dialog box, choose the VIEW ONLY option.

Then, choose the Invite by email option and email a link to your list to Erin Yates at eyates@yournpp.org.

Then, we'll add your Wish List to our master list. You're finished!
